COSMETIC MOLE REMOVAL

DO YOU HAVE a mole or skin tag that causes irritation or makes you feel self-conscious? Don't let it bother you any longer! We remove moles and skin tags on a daily basis and you don't even need a scalpel or stitches.

Cosmetic Mole Removal is a delicate radiofrequency shave procedure that removes benign (non-cancerous) moles or skin tags.

In the sunny Australian climate, moles are quite common. The vast majority of moles that appear on the skin before the age of 30 are commonly non-cancerous, but they can cause irritation on the skin, or they may just be a cosmetic nuisance, especially if they are located on the face or neck.

At Cosmetic Image Clinics, we use the high-tech gold standard Ellman Surgitron machine so there is no cutting or sutures required, unlike surgical excision. Cosmetic Mole Removal is a walk-in walk-out procedure, with little aftercare required, so you can return to your normal activities the same day.
