RETHINKING YOUR INK?

OUR LIVES ARE constantly changing and sometimes what was once important is now less relevant. If you decided to get a tattoo for a significant event in the past, that could be holding you back from the next phase in life.

If you're rethinking your ink, then Laser Tattoo Removal may be a good option for you.

Actress Angelina Jolie is one of many who have had a tattoo removed. The tattoo bearing her ex-husband's name was removed and replaced with an inking for her children.

Having that unwanted tattoo removed can alleviate the need to cover up when job-hunting or wearing your favourite outfit. Laser Tattoo Removal can be used to completely remove a tattoo or fade it for modification or correction.

It's essential to ensure that your clinic is medically-supervised and that trained technicians are using the latest laser equipment. Here at Cosmetic Image Clinics, we offer a range of pain management options to make your treatment as comfortable as possible.
